On March 12, 2011, Microsoft released the final version of Internet Explorer . Internet Explorer . Internet Explorer 7, 8, 9, 8.1, 9, 8.5, 9.0, 8.1.8, 11, 10, 9.11.x. Data Guardian is a feature that is included in Internet Explorer . Internet Explorer 11. Data Guardian is a feature that is included in Internet Explorer . Internet Explorer 9, Internet Explorer 8, Internet Explorer 7, Internet Explorer 6, Internet Explorer 5, Internet Explorer. With Data Guardian, you can view all the data changes that a web page has made, including whether the web page downloads images or scripts, whether it makes GET or POST requests, and whether it adds cookies to your computer. Internet Explorer 6 . Data Guardian is a feature that is included in Internet Explorer . Internet Explorer 5 . Data Guardian is a feature that is included in Internet Explorer . Internet Explorer 9, Internet Explorer 8, Internet Explorer 7, Internet Explorer 6, Internet Explorer 5, Internet Explorer. As shown in Figure 1, Internet Explorer 8 offers data-changed events for every object on a web page, such as images, scripts, forms, style sheets, or XML. Internet Explorer 8 provides three data-changed events for every resource: image events for images, script events for scripts, and forms events for form elements. The events occur in the order that the resources appeared on the page. Note that, as Internet Explorer 9 does not offer data-changed events, you can use the data-changed events in Internet Explorer 8 to monitor the data changes on a page, but you can use other mechanisms to monitor the performance of a page.
