Size MB File size Details A: Download & Install GPT Open the GPT file to a text editor (notepad) and delete the text ">" from the line: 5f49726963766:E6; Re-save the file using a different name (instead of GPT.text). Rename the new file GPT. Unzip the GPT zip file to somewhere you have access to as there are some very large fonts (FontLib - 1.4Gb!) in there. Open "FontArchive.exe" and browse to the GPT location. You should see "Font Archive(GPT)" in the list of available archives. Choose this
