They are full of passion and love. Dreamgirl is the dream and the dreamgirls way.U.S. Customs and Border Protection on Thursday said a Utah man has been arrested on charges of importing nearly 2 pounds of elephant ivory worth over \$5,000 into the United States. The American man, identified as Alan R. Neiman, 33, was arrested at the Mexican border and is now awaiting a hearing on the federal charges, a CBP statement said. The ivory in question was discovered at a U.S. port of entry, and CBP said it is an ivory tusk weighing 2.9 pounds and valued at more than \$5,000. As a result of the investigation, CBP said Neiman faces up to 10 years in prison and a \$250,000 fine. Authorities didn't release Neiman's name. Get The Brief. Synthetic biology is an emerging discipline that employs a new set of tools that builds upon biology and engineering principles. This interdisciplinary field is beginning to play a prominent role in healthcare as molecular machines and electronic circuitry begin to replace natural biological systems. The emerging field is already revolutionizing disease research, and it is poised to affect the future of healthcare delivery in important ways. Ovid Medical Industries (OMI) offers a new, independent line of devices for surgical instruments and blood collection. OMI's products are innovative, and designed to specifically address the needs of the healthcare market, including the use of synthetic biology. OMI is currently pursuing a listing on the NASDAQ. 2d92ce491b
