Free Download Aostsoft All Document Converter Professional 3.8.6.rar .Q: Cómo pasar los datos de un formulario a otro formulario PHP Tengo dos formularios, uno es para registrar una póliza, y otro es para ver los datos de la política a la que se ha registrado. Pero al validar lo que hay en los campos para la creación de la política debería meter en un campo "codpolicia", pero solo inserta lo que hay en el registro. A: El proceso es muy sencillo, deberías validar que el registro se haya realizado correctamente, de esa manera verificar que el codpolicia sea d
